

British Gun in Action Against Turks in the Dardanelles.

This remarkable photograph was taken during a heavy battle in the Dardanelles. It shows a British force firing their six inch gun at the Turks some distance off over the rolling sand dunes of Gallipoli.

B. T. ANDERSON
NEW MERCHANT

Has Arrived and Will Have Stock of Goods in This Week—Man of Experience.

Mr. B. T. Anderson of Newberry, who is to establish a store in the room formerly occupied by the Bailey five and ten cent store, opposite the fountain on the square, has arrived in the city and yesterday stated that he expected to open up his stock of goods and have everything ready for trade by Saturday. He has just returned from Baltimore where he bought a new and complete supply. Mr. Anderson stated that he would carry a full line of dry goods, shoes, notions, ladies' ready-to-wear, etc. He is a young man of 15 years experience and will doubtless establish a good business here. Six clerks will be employed by Mr. Anderson.

A World Success.
In October, 1911, only four years ago, President William H. Taft broke the ground for the exposition. Since that time the work has been pushed night and day with enthusiasm and energy unrivaled, and the invitation to the world was made to come, and they have come. More foreign countries are represented, and more State buildings constructed than at the Chicago World's Fair. The world has indeed responded, and in spite of financial depression, in spite of unsettled conditions, resulting from the most terrible war known in history, the Panama-Pacific Exposition was pushed on with the unswerving spirit of the early pioneers. Even the belligerent nations at war paused long enough amid the grim scenes of the trenches and the gloom of bloody battles to pay their respective tributes. —A Trip Overland—The Exposition, by Joe Mitchell Chapple, in National Magazine for June.

Some men are lucky dogs because the police permit them to run around without muzzles.

LEGAL NOTICES

STATE OF SOUTH CAROLINA, COUNTY OF ANDERSON.
Court of Common Pleas.
Mrs. Lizzie Burton, as administratrix, of the estate of Miss Jane Leverett, deceased, Plaintiff,
against
Mrs. Nannie Powell, Defendant.
To the defendant above named:
You are hereby summoned and required to answer the complaint in this action, of which a copy is herewith served upon you, and to serve a copy of your answer to the said complaint on the subscriber at their offices in the Beekley Building at Anderson, South Carolina, within twenty days after the service hereof, exclusive of the day of such service; and if you fail to answer the complaint within the time aforesaid, the plaintiff in this action will apply to the court for the relief demanded in the complaint.
Bonham, Watkins & Allen,
Plaintiff's Attorneys.
July 23, 1915.
To Mrs. Nannie Powell absent defendant:
You are hereby notified that the summons and complaint in this action were this day filed in the office of the judge of probate court for Anderson County, South Carolina.
Bonham, Watkins & Allen,
Plaintiff's Attorney.
Dated July 23, A. D., 1915.

A New Auto Joke.
Sumertime brings with it a glow of peculiar types of humor. There is always someone who is ready to tell you the latest story about the Ford automobile. These stories are produced about as rapidly as the Ford automobiles, which recently reached the astonishing record of one machine every five seconds. There is danger in telling the latest Ford story for fear of that wearied expression on the face of reader or hearer which signals, "I have heard it!" It is said that about a thousand new Ford stories are received by the advertising department at Detroit every week. One was solemnly related by Uncle Joe Cannon on his return to Washington that will apply to any automobile or a Ford.
"The man," said Uncle Joe, "appeared at the door in a striking and historic attitude and gravely announced:
"My lord, the motor waits without. The weary owner replied languidly, "Without what?" The reply came quick and decisive: "Without gasoline." The weary owner delved deep in his pocket and once more paid the toll of a mileage rate far beyond the jurisdiction of the Interstate Commerce Commission, while "without" waited the motor."
"Affairs at Washington," by Joe Mitchell Chapple, in National Magazine for June.

Elevator Tower is Built Like Pneumatic Tubes.
To supersede the old-time Ferris wheel and giant seesaw for amusement purposes, an observation tower of very novel character has been constructed at one of Chicago's summer parks. The structure, which is built entirely of steel and plate glass, is twelve-sided in form, rises to a height of 214 ft., and is 30 ft. in diameter. Fitted in this, like a carrier in a pneumatic tube, is an elevator capable of holding 125 persons. This is literally blown to the top of the shaft by air pressure. There are no cables to lift it, nor is there a pneumatic or hydraulic plunger to push it. The car is raised and lowered in the steel and glass tower in precisely the same way that an engine piston is driven by a cylinder by steam pressure. A picture of this unusual amusement device is published in the August Popular Mechanics Magazine.

Don't Become a Farmer if You Want to Get Rich.
A contributor to the current issue of Farm and Fireside gives the following advice:
"It is true, we get very tired sometimes of the drudgery of farm work; but let me assure the man who wants to get rich on the land that the call is not a 'fad' or a 'whim.' It is handed down to you from your ancestors, and if you are willing to 'tickle the earth' with a hoe and eat the fruits of your labor, a little patch of land is not a bad investment. If, however, you want to make a fortune, better look somewhere else."

Heckling at Princeton.
Hecklers have their work cut out for them when they tackle Billy Sunday.
A Princeton heckler shouted up to the evangelist on his recent Princeton visit:
"Hey, Billy, who was Cain's wife?" Billy Sunday laughed and answered:
"I like that young man, and I'm going to give him a word of advice. My advice to him is this—Don't you go and lose your soul's salvation, my boy, inquiring after other men's wives."
Gallipoli Ridge.
London, Aug. 3.—The crest of the Gallipoli peninsula has been gained by British troops and the British position in the Dardanelles has been improved, according to a statement of the official press bureau.

The Power of Niagara.
Owing to an agitation that spread over the country, with an argument that the falls of Niagara were in danger of being destroyed as a scenic spectacle, a treaty was enacted that permits twenty thousand cubic foot seconds of water to be diverted to the American side of the Niagara river, and thirty-six thousand cubic foot seconds on the Canada side. For the Chicago drainage canal ten thousand cubic foot seconds is also allowed. Canada is allowed to export to the United States one hundred and sixty thousand horse-power, which it takes twelve thousand cubic foot seconds of water to produce, so that there is twenty-four thousand cubic foot seconds remaining to produce power for use in Canada when the full development takes place. The total potential of the falls of Niagara, as estimated by engineers, is from five million to seven million horse power. The flow of water over the falls is about twenty-five million tons per hour, or one cubic mile per week. A flow of one cubic foot per second equals one square mile of water, 1.16 inches deep, in a thirty day month. The flow of the Niagara river is furnished by six thousand cubic miles of water from four lakes having ninety thousand square miles of reservoir space. —"Water Power in America," by Edward T. Williams, in National Magazine for June.

Wouldn't You Like to Sign This Pledge.
The American Magazine has been offering prizes for the best letters entitled "The Best Thing a Woman Has Done for Her Town." In the August issue the prize-winning letters are published. One of these letters describes a splendid work started in Hillsboro, Ohio, as a memorial to Sarah L. Richards. One of the definite things achieved is the education of the children of the town to their duties and rights as citizens. Five hundred and fifty-seven children have signed this pledge or creed:
"I am a citizen of the United States, and believe that our flag stands for the good of all the people. I am a citizen of Hillsboro, Ohio, and will show my patriotism and love for our village by helping make every corner of her territory a place fit to grow good men and women—our rules to be:
"I am but one.
"But I am one;
"I cannot do everything,
"But I can do something;
"But I can do, I ought to do.
"I pledge myself to make my own surroundings beautiful and sanitary and will endeavor to induce others to do likewise."
War to End in 1916?
Washington, Aug. 3.—Bankers state that the signs are that the warring nations will reach financial exhaustion by the summer of 1916. This agrees with the opinion expressed by J. P. Morgan who said the war would be over in a year.

No Time for Trifles.
"Well, Maria," said Jiggles, after the town election, "for whom did you vote this morning."
"I crossed off the names of all the candidates," returned Mrs. Jiggles, "and wrote out my principles on the back of my ballot. This is no time to consider individuals and their little personal ambitions." —New York Times.
The Wolf at the Window.
A warden entering a prison's cell one day found it very hot and stuffy.
"Why have you got your ventilator closed?" he asked.
The burly prisoner answered plaintively:
"Well, gov'nor, last time I had the ventilator open a wisp flew in, you see, and carried off my dinner while my back was turned." —Philadelphia

U. S. PLANS TO ENFORCE PEACE FOR MEXICANS

(CONTINUED FROM PAGE ONE.)
details of any plan but will invite suggestions.
Announcement of the conference surprised Mexican agents here. Carranza's agents were hopeful that action the past few weeks would lead to the ultimate recognition did not conceal their misgivings.
Villa adherents believe that Wilson will submit a plan for a provisional government taking up constitutional succession where Madero left off. Minister of Justice Tagle is in line. Should any faction revolt, they propose an embargo of munitions against the revolution, and American support of government factions. They admit this too mean intervention.
El Paso, Aug. 3.—Villa did not declare that "if the United States doesn't like my actions it can go to hell," according to Geo. E. Carothers, a special state department agent, who arrived here today from Chihuahua. Carothers declared he was in a room adjoining Saturday's conference and is positive that if Villa had used that language, he would have known it.
Villa has modified his confiscation order since Saturday, according to Carothers. He plans now to station representatives in each state to see that the profits don't exceed 15 per cent. Questions of the state as to the property of their nationals were drawn up by the United States. (French German, Italian and Spanish consuls. Over one hundred and fifty merchants who say they have been expelled from Chihuahua City are expected here. In a dispatch protesting to the state department they declare the population is starving. Reports here say there has been no corn in Chihuahua City for two weeks.

New Enterprise.
Columbia, Aug. 3.—The secretary of state today issued a charter to the Good Luck company of Allendale, with a capital of \$1,000, the officers being: W. H. Harden, president and treasurer; J. H. Newlett, vice president; William T. Gore, secretary. The company will do a general merchantable business.
Hopewell Church Graveyard.
All who are interested in the graveyard at Hopewell church are asked to be present Thursday morning to clean off the grounds.
Fatal Shell Experiment.
Philadelphia, Aug. 3.—One man was killed and three seriously injured by an explosion in the experimental bomb proof department of Frankford arsenal. It is understood that experiments are being made with a high power explosive shell.

"Whiskey, my friend, has killed more men than bullets."
"That may be, sir, but bejabbers, I'd rather be full of whiskey than bullets."
NOTICE.
The Board of Registration of Anderson County will meet the following appointments to register, renew or transfer certificates:
Anderson, Monday, August 2nd.
Williamston, Tuesday, August 3rd.
Belzer, Wednesday, August 4th.
Piedmont, Thursday, August 5th.
Pendleton, Friday, August 6th.
Townville, Saturday, August 7th.
Starr, Monday, August 9th.
Iva, Tuesday, August 10th.
Anderson Court House, Wednesday, Thursday and Friday, 11th, 12th, and 13th.
W. L. Anderson,
W. C. Burris,
R. T. Tollison,
Board of Registration of Anderson County.

IN ANOTHER KEY

Danger Signals.
Kentucky Editor—Better go easy on Colonel Fireater this issue.
Assistant—Has he made any threats?
Kentucky Editor—No; he hasn't uttered a word. That's what worries me.

All Depends.
"Bread cast on the waters will return some day. Don't you think so, John?"
"Some bread might," replied her husband cautiously. "Some bread would sink."

She Can't Get a Grip.
Young Bachelor—Why on earth do you put oil on your hair, old man? It's such a filthy habit, and—
Middle-Aged Married Man—Wait until you're married, my boy, and then you'll know.

The Reason.
"Why did the ladies in the days of chivalry give their gloves to the knights?"
"I suppose it was to show they had an admirer on hand."

Collectors.
"Of course we must have a watchdog of the treasury."
"Not yet. What we want is a few good shepherd dogs to chase the funds in."

Raising It.
"Why do you go so fast when you take that prospective customer out in your machine?"
"Because he wants speed, and I'm out for the dust."

Sure Proof.
"Mr. Smith, to whom you were talking so much, is a married man."
"Oh, I know that."
"How did you know it?"
"By the way he listened."

A LONG WAY AHEAD.

She—Papa wants me to wait until I am thirty before I get married.
He—If you're like most girls, you will never admit you're thirty.

Better Late Than Never.
"I don't believe in early weddings."
Her mother said: "It's all too soon."
"I'm quite agreed," her daughter answered;
"I'm willing to wed at noon."

Smart Set Comparisons.
"Why should you regard yourself as her social superior? Her family is as distinguished as yours?"
"Yes, but my alimony is much larger."

Fatal to Bachelorhood.
He—Do you think kissing is as dangerous as the doctors say?
She—Well, it has certainly put an end to a good many bachelors, at any rate.

Disatisfied.
Small Daughter—Dad, did the doctor bring my little sister?
Dad—Yes, dear.
Small Daughter—Dad, would you mind trying another doctor next time?

Gashed.
First Chauffeur—Who was that fellow you ran over?
Second Ditto—I guess it must o' been th' glass eater at the vedyville theater. Look at that tire!

Qualifications.
Caller—Pardon me, sir, but is there another artist in this building?
Artist—There is not. There is, however, a man on the fourth floor who paints.

Curious Formation.
"Professor, you seem interested in my jelly cake."
"Yes," said the eminent geologist, "you seldom see such regular and sharply defined strata."

ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR
Use like Gold Cream, to rubbing irritation and clear the skin.
Any breaking out of irritation on the face, arms, legs and body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a medical dermatologist.
He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasitic-destroying property. Nothing has ever been found to take the place in treating the irritable and inflammatory skin conditions. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the eczema away and it is often years later before any eruption again appears.
Those troubled should obtain from any druggist an ounce of bold-sulphur, which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching eczema, proves very welcome.
